

CONCEPTS OF VECTORS

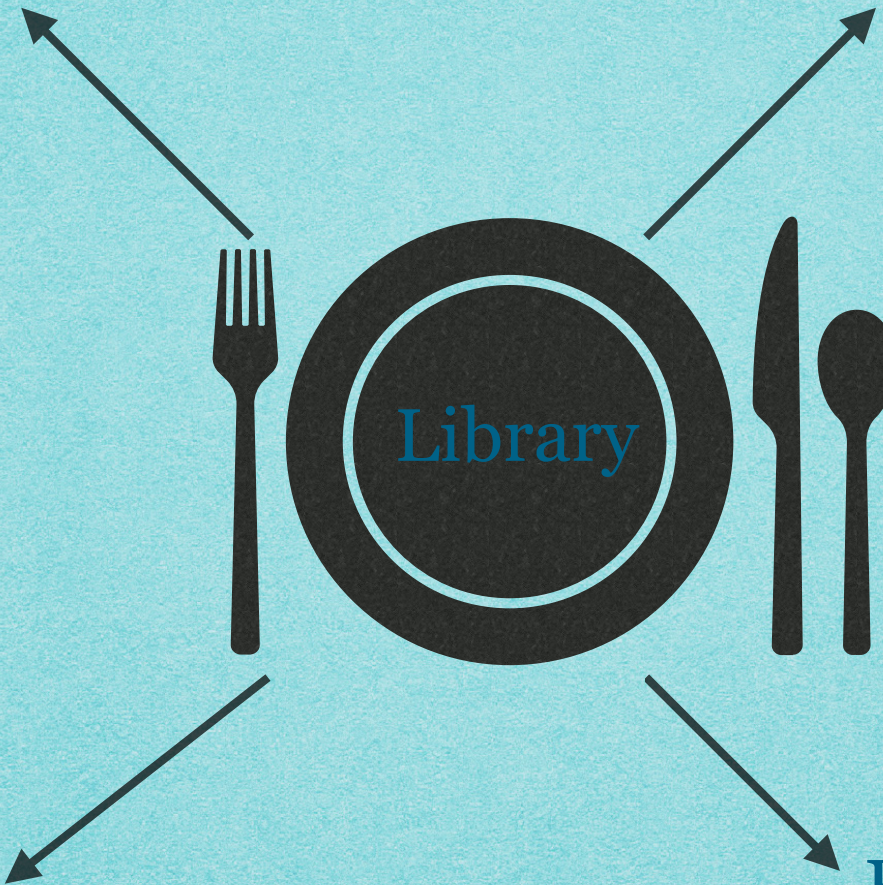

challenge Accepted

By Prince Agarwal
[“HELLO WORLD”]

STL —> Standard Template Library

Too many methods

In built Functions

Implement any where

Easy too apply

Syntax for using vector

```
#include <vector >           // Header file include
```

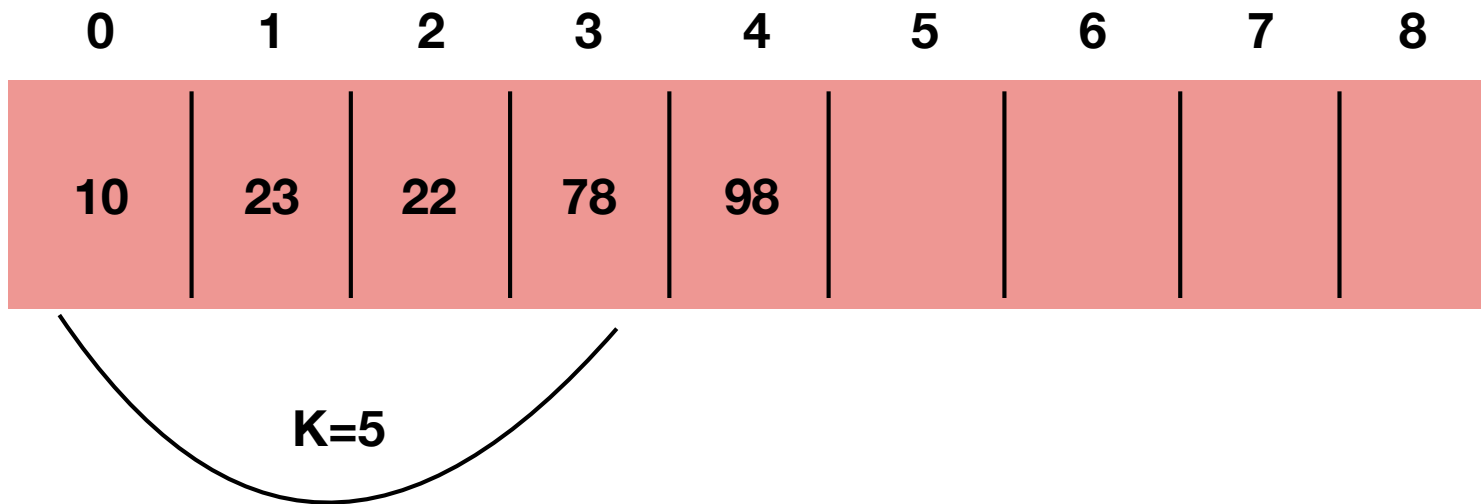

```
Vector <int > v ;           // Initialise the vector elements.
```

Functions :

```
Sort  
Add elements // via .. Push_back
```

Working of functions in vector
