

Question deals with strings

CHEFROUT

By Prince Agarwal
[“ Hello World ”]

Chef and his daily routine

Cook

C

Eat

E

Sleep

S

Robot record the sequence —> CESSCESCE

Chef and his daily routine

Misconception in understanding the question :-

1. there is not anywhere mention chef can only cook at one time.
2. There is not any where mention chef can't sleep multiple times .

There is only 1 restriction :—

Chef first cook —> then (but not immediately) Eat --> then (but not immediately) Sleep

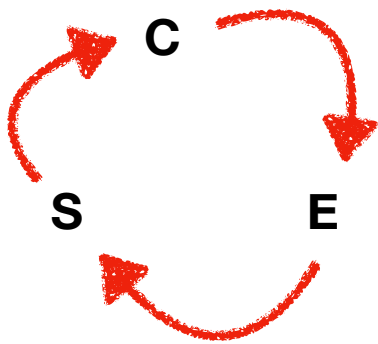

And, at last days will be off

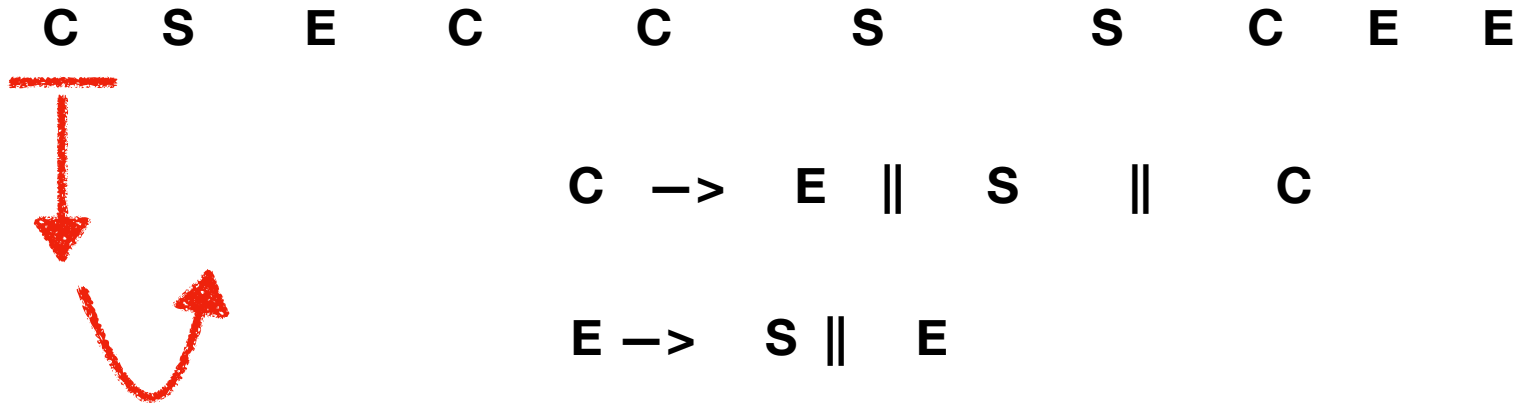

Suppose string is :- CSECCSSCEE

C S E C C S S C E E

Start ↑ ↓ **End**

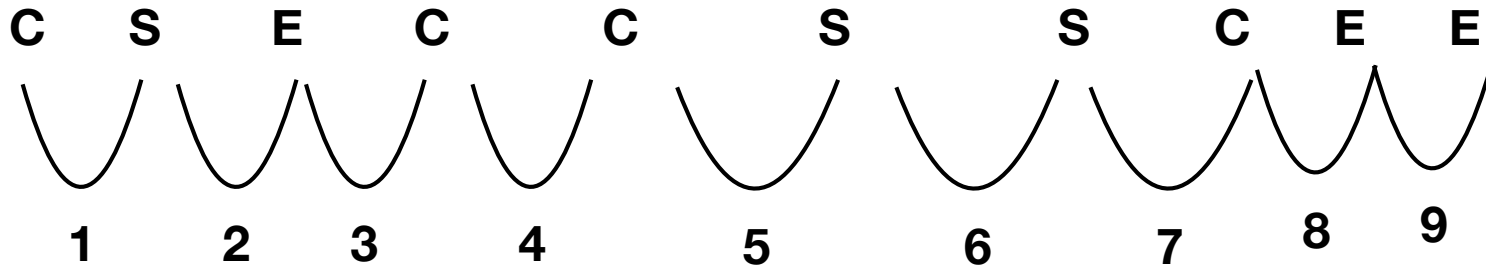

Suppose string is :— CSECCSSCEE

Suppose string is :— CSECCSSCEE

Length = 10

Int count=9 ;
